

Technical drawing of a reinforced concrete slab (Table 10.1). The drawing shows a plan view of a rectangular slab with dimensions 270 cm by 280 cm. The slab is supported by four columns. The reinforcement is shown as a grid of bars. The top reinforcement consists of 3 bars of diameter 10 mm (3e10) and 3 bars of diameter 16 mm (3e16). The bottom reinforcement consists of 2 bars of diameter 12 mm (2e12) and 3 bars of diameter 16 mm (3e16). The distance between the bars is 160 mm. The drawing also shows a cross-section of the slab, indicating a height of 200 mm. The cross-section shows the top reinforcement (3e10) and bottom reinforcement (2e12) with a concrete cover of 20 mm. The drawing is labeled 'Table 10.1' and 'Fig. 10.1'.
